Continuance of the appointment of Mr R.S. Kallol... in grade Rs 125-10-175 in connection with Freq... Conversion...

General and Revenue Secretariat

File No. 269 of 194...

Serial No.

Letter No. 14471 dated the 18th/19th Nov 194... from the Chief Electrical Engineer, stating that the term of the temporary appointment of Senior Operator on Rs 125-10-175 against which Mr. R.S. Kallolimath, B.Sc. (Manch) has been working in connection with the Frequency Conversion Scheme, expires by 9-12-46 (A.N.) and requesting approval of Govt. to continue him for a period of 12 months more with effect from the 10th December 1946 on Rs 125-10-175 for reasons mentioned

The C.E.E. has proposed that the temporary appointment of Junior Engineer on Rs 200-20-300 sanctioned for six months in connection with Frequency Conversion Scheme in G.O. No. PWD 5-29-3 dated 7-9-1945 may be reduced to that of an operator in grade Rs 125-10-175 for a period of 12 months and Mr. Kallolimath be counted against this new post. He further states that the cost involved can be met out of the sum of Rs 5200 sanctioned in the G.O. of 7-9-1945 as the Ministerial establishment sanctioned therein has not been entertained hitherto.

2) Financial Concurrence is necessary for the proposal. The Chief Electrical

NOTE—Contn. Sheet

Electrical Engineer had stated originally in his letter dated 31-10-45 that if the Kallolimatti work were found to be satisfactory during his temporary term of appointment, he would recommend him for absorption in the grade of Rs 125-10-175 in a permanent vacancy to be available at the end of the period. In the present letter dated 19th Nov 1946, the C.E.E. has not touched upon this point and he has merely requested for the continuance of the Kallolimatti for 12 months more against a temporary work. Submitted for orders.

DTO 21/11/46 Pr 21/11

for 12 months

3) The necessity for continuing the Kallolimatti is indicated by the fact that collection of data relating to Bangalore Power & lighting, Chikballapur P.S., K.G.F & Kankanhalli sections remains to be done. This may be sanctioned.

4) But in view of his qualifications & experience in foreign countries, it is a point for consideration if the Kallolimatti cannot be ~~taken~~ counted as a Junior Engineer especially when there is a provision in the temporary Establishment sanctioned for a junior Engineer. ~~Engineer for grade~~

5) I understand from the CEE that against a originally sanctioned amount of Rs 5,200, the actual outlay has been only Rs 2,000. Therefore, Mr. Kallolimatta could easily be counted against the place of a Jr. Engineer for a period of 1 year, in view of his foreign qualifications and training.

6) Collection of data in the Bangalore, K.G.F., and Chickballapur areas re the frequency conversion has yet to be done, and so there is doubtless a necessity to continue his services. Mr. Kallolimatta may perhaps be started on Rs 200 in the grade of Junior Engineer for which there is a provision in the Sanctioned establishment. In lieu of 1 Jr. Engr. and 2 Senior Operators, only one Junior Engineer may be sanctioned for 1 year.

11) In 1943, the Chief Electrical Engineer sent up a proposal to appoint Mr. R.S. Kallolimath as a Junior Engineer on Rs. 200/- in grade Rs. 200-20-300. In the memorandum accompanying his letter, the Chief Electfical Engineer says that Mr. Kallolimath is a B.Sc. in Electrical Engineering in the College of Technology in the Manchester University and has had considerable training in the manufacturing firms in England. But, his proposal was not accepted as could be seen from the orders passed by the previous Dewan.

12) When the next batch of probationers was taken in May 1945, his case was not taken into consideration perhaps on the ground that he is not a Mysorean. In November 1945, he was appointed on Rs. 125/- in grade Rs. 125-10-175 temporarily for a period of 6 months in one of the vacancies sanctioned by Government in their order Edn. 529-31- dated 7th September 1945, for frequency conversion scheme. The Chief Electrical Engineer, who sent up his proposals stated that he would be absorbed in that grade after the expiry of the period, if his work is found satisfactory. The appointment was extended by another 6 months as proposed by the Chief Electrical Engineer and it expired

		Serial No. 4378

on 9th December 1946. The Chief Electrical Engineer has now sent up further proposals for continuing his appointment for a further period of 12 months. The Chief Electrical Engineer, in his letter dated 18th November 1946 says that since there is no appointment in grade Rs. 125-10-175 in the temporary establishment sanctioned in Government Order dated 7th September 1945. Mr. Kallolimath may be appointed against the vacancy of a Junior Engineer sanctioned in the said Order by reducing the same to that of a senior operator. The Electrical Secretary, in para 5 above suggests that Mr. Kallolimath may be appointed as a Junior Engineer for a period of one year against the sanctioned post of a Junior Engineer in view of the foreign qualification of the officer.

"B"

2) The Financial Secretary has noted that since the Chief Electrical Engineer has not proposed any increase in the pay of Mr. Kallolimath and has only asked for the continuance of this officer in the grade, his proposal may be sanctioned.

3) In view of the very high foreign qualification of the officer, and his experience in reputed English firms where he has worked, and in view of the fact that the present Chief Electrical Engineer himself has recommended him for appointment as a Junior Engineer on Rs. 200/- in grade Rs. 200-20-300, I am inclined to agree with the Electrical Secretary that Mr. Kallolimath may be appointed on Rs. 200/- against the sanctioned post of a Junior Engineer.

NOTE– Contn. Sheet

NOTE FOR CIRCULATION IN COUNCIL.

Subject:- Promotion of Mr. R. S. Kallolimath, B.Sc.(Manchester), Operator, as a Junior Engineer in the Electrical Department.

In his letter dated the 31st October 1945, the Chief Electrical Engineer recommended that Mr. R. S. Kallolimath be appointed as a temporary operator on Rs 125/- per mensem, in the grade of Rs 125-10-175 against one of the Senior Operators' posts sanctioned in Government Order No.EDS.529-31 dated 7th September 1945, for a period of six months in connection with the work relating to the collection of data for the Frequency Conversion Scheme in the area covered by Bhadravati and Davangere Power Stations. The Chief Electrical Engineer also added that if his work is found satisfactory during the above period, his case would be recommended for absorption in the above grade in a permanent vacancy to be available at the end of the period. The above recommendation of the Chief Electrical Engineer was sanctioned by Government in Government Order No.EDS. 1013-15 dated the 21st November 1945.

2. Later in his letter dated the 20th June 1946, the Chief Electrical Engineer reported that as the collection of data for conversion of Power Distribution System at and around Bhadravati had not been completed it was necessary to continue the services of Mr. Kallolimath for a further period of six

six months from 10th June 1946 and this was also sanctioned by Government in No.EDS.92-94 dated the 11th July 1946.

d)

P.W.D)

3. In his present letter dated the 18th/19th November 1946 the Chief Electrical Engineer states that during the last 12 months Mr. Kallolimath has collected the data pertaining to Electrical Machinery installed by the several consumers in Bhadravati, Hassan and Mysore Sections and that it is desirable to continue his services for one year more from 10th December 1946, so that he may also collect data pertaining to the Electrical machinery used by the consumers in other Sections viz. Bangalore Power and Lighting, Chickballapur Power and Lighting, Kolar Gold Fields Power and Lighting and Kankanhalli Power and Lighting and that this data will be considerably useful in the distribution of power generated at Jog and devising the easiest means by which the power supply system in the State can be changed to 50 cycles. As there was no appointment in grade Rs 125-10-175 in the temporary establishment sanctioned in Government Order dated 7th ~~October~~ September 1945 referred to above to continue Mr. Kallolimath, the Chief Electrical Engineer suggested that one post of Junior Engineer in the grade of Rs 200-20-300 sanctioned in the said Government Order dated 7th September 1945 for six months might be reduced to that of an Operator in the grade of Rs 125-10-175 for a period of 12 months and Mr. Kallolimath be counted against the new post, the cost on this account being met out of the sum of Rs 5,200 sanctioned in the same

e)

same Government Order of 7th September 1945 as the ministerial establishment sanctioned therein had not been entertained so far.

Paras 5 & 6 of Instructions

4. Remarks of the Secretary to Government Electrical Department on the above:-

"I understand from the Chief Electrical Engineer that against an originally sanctioned amount of Rs 5,200/-, the actual outlay has been only Rs 2,000/-. Therefore Mr.Kallolimath could easily be counted against the place of a Junior Engineer for a period one year in view of his foreign qualifications and training".

"Collection of data in the Bangalore, Kolar Gold Fields and Chickballapur areas re. the frequency conversion has yet to be done, and so, there is doubtless a necessity to continue his services. Mr. Kallolimath may perhaps be started on Rs 200/- in the grade of Junior Engineer for which there is a provision in the sanctioned establishment. In lieu of 1 Junior Engineer and 2 Senior Operators, only one Junior Engineer may be sanctioned for one year".

Para 7 of Instructions & orders

5. Thereupon the Financial Secretary to Government has observed as follows:-

"This Officer was appointed temporarily in grade Rs 125-10-175. The Chief Electrical Engineer proposes the continuance of this officer in the same grade and on the same pay. He has not proposed any increase in the pay. His proposals may be approved."

6. When the papers were placed before the Minister for Agriculture and Public Works, he was pleased to minute as follows:-

"It seems that on a previous occasion on the representation of this officer for being appointed in a Gazetted Post, the previous Dewan seems to have ordered that his case may be taken up for consideration when the next batch of Probationers are recruited. Please get the file and put it up for my perusal".

7. On the papers being put up, the Minister for Agriculture and Public Works has further minuted as follows:-

"In 1943, the Chief Electrical Engineer sent up a proposal to appoint Mr. R.S. Kallolimath as a Junior Engineer on Rs 200/- in grade Rs 200-20-300. In the Memorandum accompanying his letter the Chief Electrical Engineer says that Mr. Kallolimath is a B.Sc., in Electrical Engineering in the College of Technology in the Manchester University and has had considerable training in the manufacturing firms in England. But his proposal was not accepted as could be seen from the orders passed by the previous Dewan".

"When the next batch of Probationers was taken in May 1945, his case was not taken into consideration, perhaps on the ground that he was not a Mysorean. In November 1945, he was appointed on Rs 125/- in grade Rs 125-10-175 temporarily

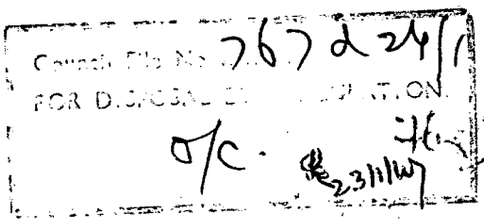
temporarily for a period of six months in one of the vacancies sanctioned by Government in their Order No.EDS.529-31 dated 7th September 1945 for frequency conversion scheme. The Chief Electrical Engineer who sent up his proposals stated that he would be absorbed in that grade after the expiry of the period, if his work was found satisfactory. The appointment was extended by another six months as proposed by the Chief Electrical Engineer and it expired on 9th December 1946. The Chief Electrical Engineer has now sent up further proposals for continuing his appointment for a further period of 12 months"

After considering the views of the Chief Electrical Engineer, the Electrical and the Financial Secretaries the Minister further observed as follows:-

"In view of the very high foreign qualification of the Officer and his experience in reputed English Firms where he has worked and in view of the fact that the present Chief Electrical Engineer himself had recommended him for appointment as a Junior Engineer on Rs 200/- in grade Rs 200-20-300 I am inclined to agree with the Electrical Secretary that Mr.Kallolimath may be appointed on Rs 200/- against the sanctioned post of a Junior Engineer".

8. The Dewan is agreeable to the proposal as set forth in the minute of the Minister

Minister for Agriculture and Public Works.



9. In view of urgency orders have been issued pending disposal of the case by circulation, after obtaining the approval of the Minister for Agriculture and Public Works and the Dewan thereto.

NOTE FOR CIRCULATION IN COUNCIL.

Subject:- Promotion of Mr. N. S. Kallolimath B.Sc.(Manchester), Operator, as a Junior Engineer in the Electrical Department.

In his letter dated the 31st October 1945, the Chief Electrical Engineer recommended that Mr. N. S. Kallolimath be appointed as a temporary operator on Rs 125/- per mensem, in the grade of Rs 125-10-175 against one of the Senior Operators' posts sanctioned in Government Order No.PWD.529-31 dated 7th September 1945, for a period of six months in connection with the work relating to the collection of data for the Frequency Conversion Scheme in the area covered by Bhadravati and Davangere Power Stations. The Chief Electrical Engineer also added that if his work is found satisfactory during the above period, his case could be recommended for absorption in the above grade in a permanent vacancy to be available at the end of the period. The above recommendation of the Chief Electrical Engineer was sanctioned by Government in Government Order No.PWD. 1013-15 dated the 21st November 1945.

2. Later in his letter dated the 20th June 1946, the Chief Electrical Engineer reported that as the collection of data for conversion of Power Distribution System at and around Bhadravati had not been completed it was necessary to continue the [illegible] Mr. Kallolimath for

six months from 10th June 1946 and this was also sanctioned by Government in No.EW.92-94 dated the 11th July 1946.

3. In his present letter dated the 18th/19th November 1946 the Chief Electrical Engineer states that during the last 12 months Mr. Kallolimath has collected the data pertaining to Electrical Machinery installed by the several consumers in Bhadravati, Mangalore and Mysore Sections and that it is desirable to continue his services for one year more from 10th December 1946, so that he may also collect data pertaining to the Electrical machinery used by the consumers in other Sections viz. Bangalore Power and Lighting, Chickballapur Power and Lighting, Kolar Gold Fields Power and Lighting and Kankanhalli Power and Lighting and that this data will be considerably useful in the distribution of power generated at Jog and devising the easiest means by which the power supply system in the State can be changed to 50 cycles. As there was no appointment in grade Rs 125-10-175 in the temporary establishment sanctioned in Government Order dated 7th ~~October~~ September 1945 referred to above to continue Mr. Kallolimath, the Chief Electrical Engineer suggested that one post of Junior Engineer in the grade of Rs 200-20-300 sanctioned in the said Government Order dated 7th September 1945 for six months might be reduced to that of an Operator in the grade of Rs 125-10-175 for a period of 12 months and Mr. Kallolimath be counted against the new post, the cost on this account being met out of the sum of Rs 5,200 sanctioned in the same

same Government Order of 7th September 1965 as the ministerial establishment sanctioned therein had not been entertained so far.

4. Remarks of the Secretary to Government Electrical Department on the above:-

"I understand from the Chief Electrical Engineer that against an originally sanctioned amount of Rs 5,200/-, the actual outlay has been only Rs 2,000/-. Therefore Mr.Kallolimath could easily be counted against the place of a Junior Engineer for a period one year in view of his foreign qualifications and training".

"Collection of data in the Bangalore, Kolar Gold Fields and Chickballapur areas re. the frequency conversion has yet to be done, and so, there is doubtless a necessity to continue his services. Mr. Kallolimath may perhaps be started on Rs 200/- in the grade of Junior Engineer for which there is a provision in the sanctioned establishment. In lieu of 1 Junior Engineer and 2 Senior Operators, only one Junior Engineer may be sanctioned for one year".

5. Thereupon the Financial Secretary to Government has observed as follows:-

"This officer was appointed temporarily in grade Rs 125-10-175. The Chief Electrical Engineer proposes the continuance of this officer in the same grade and on the same pay. He has not proposed any increase in the pay. His proposals may be approved."

6. When the papers were placed before the Minister for Agriculture and Public Works, he was pleased to minute as follows:-

" It seems that on a previous occasion on the representation of this Officer for being appointed in a Gazetted Post, the previous Dewan seems to have ordered that his case may be taken up for consideration when the next batch of Probationers are recruited. Please get the file and put it up for my perusal".

7. On the papers being put up, the Minister for Agriculture and Public Works has further minuted as follows:-

"In 1943, the Chief Electrical Engineer sent up a proposal to appoint Mr. R.S. Kallolimath as a Junior Engineer on Rs 200/- in grade Rs 200-20-300. In the Memorandum accompanying his letter the Chief Electrical Engineer says that Mr. Kallolimath is a B.Sc., in Electrical Engineering in the College of Technology in the Manchester University and has had considerable training in the manufacturing firms in England. But his proposal was not accepted as could be seen from the orders passed by the previous Dewan".

"When the next batch of Probationers was taken in May 1945, his case was not taken into consideration, perhaps on the ground that he is not a Kannadiga. In November 1945, he was appointed on Rs 125/- in grade Rs 125-10-175 temporarily

temporarily for a period of six months in one of the vacancies sanctioned by Government in their Order No.EDS.529-31 dated 7th September 1945 for frequency conversion scheme. The Chief Electrical Engineer who sent up his proposals stated that he would be absorbed in that grade after the expiry of the period, if his work is found satisfactory. The appointment was extended by another six months as proposed by the Chief Electrical Engineer and it expired on 9th December 1946. The Chief Electrical Engineer has now sent up further proposals for continuing his appointment for a further period of 12 months"

After considering the views of the Chief Electrical Engineer, the Electrical and the Financial Secretaries, the Minister further observed as follows:-

"In view of the very high foreign qualification of the officer and his experience in reputed English Firms where he has worked and in view of the fact that the present Chief Electrical Engineer himself had recommended him for appointment as a Junior Engineer on Rs 200/- in grade Rs 200-20-300 I am inclined to agree with the Electrical Secretary that Mr.Kallolimath may be appointed on Rs 200/- against the sanctioned post of a Junior Engineer".

8. The Dewan is agreeable to the proposal as set forth in the minute of the Minister

NOTE FOR CIRCULATION IN COUNCIL.

Subject:- Promotion of Mr. R. S. Kallolimath B.Sc.(Manchester), Operator, as a Junior Engineer in the Electrical Department.

In his letter dated the 31st October 1945, the Chief Electrical Engineer recommended that Mr. R. S. Kallolimath be appointed as a temporary operator on Rs 125/- per mensem, in the grade of Rs 125-10-175 against one of the Senior Operators' posts sanctioned in Government Order No.ED.529-31 dated 7th September 1945, for a period of six months in connection with the work relating to the collection of data for the Frequency Conversion Scheme in the area covered by Bhadravati and Davangere Power Stations. The Chief Electrical Engineer also added that if his work is found satisfactory during the above period, his case would be recommended for absorption in the above grade in a permanent vacancy to be available at the end of the period. The above recommendation of the Chief Electrical Engineer was sanctioned by Government in Government Order No.ED. 1013-15 dated the 21st November 1945.

2. Later in his letter dated the 20th June 1946, the Chief Electrical Engineer reported that as the collection of data for conversion of Power Distribution System at and around Bhadravati had not been completed it was necessary to continue the services of Mr. Kallolimath for a further period of six

six months from 10th June 1946 and this was also sanctioned by Government in No.EDC.92-94 dated the 11th July 1946.

3. In his present letter dated the 18th/19th November 1946 the Chief Electrical Engineer states that during the last 12 months Mr. Kallolimath has collected the data pertaining to Electrical Machinery installed by the several consumers in Bhadravati, Hassan and Mysore Sections and that it is desirable to continue his services for one year more from 10th December 1946, so that he may also collect data pertaining to the Electrical machinery used by the consumers in other Sections viz. Bangalore Power and Lighting, Chickballapur Power and Lighting, Kolar Gold Fields Power and Lighting and Kankanhalli Power and Lighting and that this data will be considerably useful in the distribution of power generated at Jog and devising the easiest means by which the power supply system in the State can be changed to 50 cycles. As there was no appointment in grade Rs 125-10-175 in the temporary establishment sanctioned in Government Order dated 7th October 1945 referred to above to continue Mr. Kallolimath, the Chief Electrical Engineer suggested that one post of Junior Engineer in the grade of Rs 200-20-300 sanctioned in the said Government Order dated 7th September 1945 for six months might be reduced to that of an Operator in the grade of Rs 125-10-175 for a period of 12 months and Mr. Kallolimath be counted against the new post, the cost on this account being met out of the sum of Rs 5,200 sanctioned in the same

same Government Order of 7th September 1946 as the ministerial establishment sanctioned therein had not been entertained so far.

4. Remarks of the Secretary to Government Electrical Department on the above:-

"I understand from the Chief Electrical Engineer that against an originally sanctioned amount of Rs 5,200/-, the actual outlay has been only Rs 2,000/-. Therefore Mr.Kallolimath could easily be counted against the place of a Junior Engineer for a period one year in view of his foreign qualifications and training".

"Collection of data in the Bangalore, Kolar Gold Fields and Chickballapur areas re. the frequency conversion has yet to be done, and so, there is doubtless a necessity to continue his services. Mr. Kallolimath may perhaps be started on Rs 200/- in the grade of Junior Engineer for which there is a provision in the sanctioned establishment. In lieu of 1 Junior Engineer and 2 Senior Operators, only one Junior Engineer may be sanctioned for one year".

5. Thereupon the Financial Secretary to Government has observed as follows:-

"This Officer was appointed temporarily in grade Rs 125-10-175. The Chief Electrical Engineer proposes the continuance of this officer in the same grade and on the same pay. He has not proposed any increase in the pay. His proposals may be approved."

6. When the papers were placed before the Minister for Agriculture and Public Works, he was pleased to minute as follows:-

" It seems that on a previous occasion on the representation of this Officer for being appointed in a Gazetted Post, the previous Dewan seems to have ordered that his case may be taken up for consideration when the next batch of Probationers are recruited. Please get the file and put it for my perusal".

7. On the papers being put up, the Minister for Agriculture and Public Works has further minuted as follows:-

"In 1943, the Chief Electrical Engineer sent up a proposal to appoint Mr. R.S. Kallolimath as a Junior Engineer on Rs 200/- in grade Rs 200-20-300. In the Memorandum accompanying his letter the Chief Electrical Engineer says that Mr. Kallolimath is a B.Sc., in Electrical Engineering in the College of Technology in the Manchester University and has had considerable training in the manufacturing firms in England. But his proposal was not accepted as could be seen from the orders passed by the previous Dewan".

"When the next batch of Probationers was taken in May 1945, his case was not taken into consideration, perhaps on the ground that he is not a Mysorean. In November 1945, he was appointed on Rs 125/- in grade Rs 125-10-175 temporarily

temporarily for a period of six months in one of the vacancies sanctioned by Government in their Order No.EDS.529-31 dated 7th September 1945 for frequency conversion scheme. The Chief Electrical Engineer who sent up his proposals stated that he would be absorbed in that grade after the expiry of the period, if his work is found satisfactory. The appointment was extended by another six months as proposed by the Chief Electrical Engineer and it expired on 9th December 1946. The Chief Electrical Engineer has now sent up further proposals for continuing his appointment for a further period of 12 months"

After considering the views of the Chief Electrical Engineer, the Electrical and the Financial Secretaries the Minister further observed as follows:-

"In view of the very high foreign qualification of the officer and his experience in reputed English Firms where he has worked and in view of the fact that the present Chief Electrical Engineer himself had recommended him for appointment as a Junior Engineer on Rs 200/- in grade Rs 200-20-300 I am inclined to agree with the Electrical Secretary that Mr.Kallolimath may be appointed on Rs 200/- against the sanctioned post of a Junior Engineer".

8. The Dewan is agreeable to the proposal as set forth in the minute of the Minister

NOTE FOR CIRCULATION IN COUNCIL.

Subject:- Promotion of Mr. R. S. Kallolimath B.Sc.(Manchester), Operator, as a Junior Engineer in the Electrical Department.

In his letter dated the 31st October 1945, the Chief Electrical Engineer recommended that Mr. R. S. Kallolimath be appointed as a temporary operator on Rs 125/- per mensem, in the grade of Rs 125-10-175 against one of the Senior Operators' posts sanctioned in Government Order No.EDS.529-31 dated 7th September 1945, for a period of six months in connection with the work relating to the collection of data for the Frequency Conversion Scheme in the area covered by Bhadravati and Davangere Power Stations. The Chief Electrical Engineer also added that if his work is found satisfactory during the above period, his case would be recommended for absorption in the above grade in a permanent vacancy to be available at the end of the period. The above recommendation of the Chief Electrical Engineer was sanctioned by Government in Government Order No.EDS. 1013-15 dated the 21st November 1945.

2. Later in his letter dated the 20th June 1946, the Chief Electrical Engineer reported that as the collection of data for conversion of Power Distribution System at and around Bhadravati had not been completed it was necessary to continue the services of Mr. Kallolimath for a further period of six

six months from 10th June 1946 and this was also sanctioned by Government in No.EDC.92-94 dated the 11th July 1946.

3. In his present letter dated the 18th/19th November 1946 the Chief Electrical Engineer states that during the last 12 months Mr. Kallolimath has collected the data pertaining to Electrical Machinery installed by the several consumers in Bhadravati, Hassan and Mysore Sections and that it is desirable to continue his services for one year more from 10th December 1946, so that he may also collect data pertaining to the Electrical machinery used by the consumers in other Sections viz. Bangalore Power and Lighting, Chickballapur Power and Lighting, Kolar Gold Fields Power and Lighting and Kankanhalli Power and Lighting and that this data will be considerably useful in the distribution of power generated at Jog and devising the easiest means by which the power supply system in the State can be changed to 50 cycles. As there was no appointment in grade Rs 125-10-175 in the temporary establishment sanctioned in Government Order dated 7th ~~October~~ September 1945 referred to above to continue Mr. Kallolimath, the Chief Electrical Engineer suggested that one post of Junior Engineer in the grade of Rs 200-20-300 sanctioned in the said Government Order dated 7th September 1945 for six months might be reduced to that of an Operator in the grade of Rs 125-10-175 for a period of 12 months and Mr. Kallolimath be counted against the new post, the cost on this account being met out of the sum of Rs 5,200 sanctioned in the same

same Government Order of 7th September 1945 as the ministerial establishment sanctioned therein had not been entertained so far.

4. Remarks of the Secretary to Government Electrical Department on the above:-

"I understand from the Chief Electrical Engineer that against an originally sanctioned amount of Rs 5,200/-, the actual outlay has been only Rs 2,000/-. Therefore Mr.Kallolimath could easily be counted against the place of a Junior Engineer for a period one year in view of his foreign qualifications and training".

"Collection of data in the Bangalore, Kolar Gold Fields and Chickballapur areas re. the frequency conversion has yet to be done, and so, there is doubtless a necessity to continue his services. Mr. Kallolimath may perhaps be started on Rs 200/- in the grade of Junior Engineer for which there is a provision in the sanctioned establishment. In lieu of 1 Junior Engineer and 2 Senior Operators, only one Junior Engineer may be sanctioned for one year".

5. Thereupon the Financial Secretary to Government has observed as follows:-

> "This Officer was appointed temporarily in grade Rs 125-10-175. The Chief Electrical Engineer proposes the continuance of this officer in the same grade and on the same pay. He has not proposed any increase in the pay. His proposals may be approved."

6. When the papers were placed before the Minister for Agriculture and Public Works, he was pleased to minute as follows:-

" It seems that on a previous occasion on the representation of this Officer for being appointed in a Gazetted Post, the previous Dewan seems to have ordered that his case may be taken up for consideration when the next batch of Probationers are recruited. Please get the file and put it up for my perusal".

7. On the papers being put up, the Minister for Agriculture and Public Works has further minuted as follows:-

"In 1943, the Chief Electrical Engineer sent up a proposal to appoint Mr. R.S. Kallolimath as a Junior Engineer on Rs 200/- in grade Rs 200-20-300. In the Memorandum accompanying his letter the Chief Electrical Engineer says that Mr. Kallolimath is a B.Sc., in Electrical Engineering in the College of Technology in the Manchester University and has had considerable training in the manufacturing firms in England. But his proposal was not accepted as could be seen from the orders passed by the previous Dewan".

"When the next batch of Probationers was taken in May 1945, his case was not taken into consideration, perhaps on the ground that he is not a Mysorean. In November 1945, he was appointed on Rs 125/- in grade Rs 125-10-175 temporarily

temporarily for a period of six months in one of the vacancies sanctioned by Government in their Order No.EDS.529-31 dated 7th September 1945 for frequency conversion scheme. The Chief Electrical Engineer who sent up his proposals stated that he would be absorbed in that grade after the expiry of the period, if his work is found satisfactory. The appointment was extended by another six months as proposed by the Chief Electrical Engineer and it expired on 9th December 1946. The Chief Electrical Engineer has now sent up further proposals for continuing his appointment for a further period of 12 months"

After considering the views of the Chief Electrical Engineer, the Electrical and the Financial Secretaries the Minister further observed as follows:-

"In view of the very high foreign qualification of the officer and his experience in reputed English Firms where he has worked and in view of the fact that the present Chief Electrical Engineer himself had recommended him for appointment as a Junior Engineer on Rs 200/- in grade Rs 200-20-300 I am inclined to agree with the Electrical Secretary that Mr.Kallolimath may be appointed on Rs 200/- against the sanctioned post of a Junior Engineer".

8. The Dewan is agreeable to the proposal as set forth in the minute of the Minister

NOTE FOR CIRCULATION BY COUNCIL.

Council File No. .....
FOR DISPOSAL BY CIRCULATION.

Subject:- Promotion of Mr. N. S. Kalloliamth B.Sc.(Manchester), Operator, as a Junior Engineer in the Electrical Department.

In his letter dated the 31st October 1945, the Chief Electrical Engineer recommended that Mr. N. S. Kalloliamth be appointed as a temporary operator on Rs 125/- per mensem, in the grade of Rs 125-10-175 against one of the Senior Operators' posts sanctioned in Government Order No.PWD.829-31 dated 7th September 1945, for a period of six months in connection with the work relating to the collection of data for the Frequency Conversion Scheme in the area covered by Bhadravati and Davangere Power Stations. The Chief Electrical Engineer also added that if his work is found satisfactory during the above period, his case would be recommended for absorption in the above grade in a permanent vacancy to be available at the end of the period. The above recommendation of the Chief Electrical Engineer was sanctioned by Government in Government Order No.PWD. 1013-15 dated the 21st November 1945.

2. Later in his letter dated the 20th June 1946, the Chief Electrical Engineer reported that as the collection of data for conversion of Power Distribution System at and around Bhadravati had not been completed it was necessary to continue the services of Mr. Kalloliamth for a further period of six

six months from 10th June 1946 and this was also sanctioned by Government in No.[illegible].82-86 dated the 11th July 1946.

3. In his present letter dated the 16th/19th November 1946 the Chief Electrical Engineer states that during the last 12 months Mr. Kallolimath has collected the data pertaining to Electrical Machinery installed by the several consumers in Bhadravati, Hassan and Mysore Sections and that it is desirable to continue his services for one year more from 10th December 1946, so that he may also collect data pertaining to the Electrical machinery used by the consumers in other Sections viz. Bangalore Power and Lighting, Chickballapur Power and Lighting, Kolar Gold Fields Power and Lighting and Kankanhalli Power and Lighting and that this data will be considerably useful in the distribution of power generated at Jog and devising the easiest means by which the power supply system in the State can be changed to 50 cycles. As there was no appointment in grade Rs 125-10-175 in the temporary establishment sanctioned in Government Order dated 7th ~~October~~ September 1945 referred to above, to continue Mr. Kallolimath, the Chief Electrical Engineer suggested that one post of Junior Engineer in the grade of Rs 200-20-300 sanctioned in the said Government Order dated 7th September 1945 for six months might be reduced to that of an Operator in the grade of Rs 125-10-175 for a period of 12 months and Mr. Kallolimath be counted against the new post, the cost on this account being met out of the sum of Rs 5,200 sanctioned in the same

same Government Order of 7th September 1948 as the ministerial establishment sanctioned therein had not been entertained so far.

4. Remarks of the Secretary to Government Electrical Department on the above:-

"I understand from the Chief Electrical Engineer that against an originally sanctioned amount of Rs 6,200/-, the actual outlay has been only Rs 2,000/-. Therefore Mr.Kallolimath could easily be counted against the place of a Junior Engineer for a period one year in view of his foreign qualifications and training".

"Collection of data in the Bangalore, Kolar Gold Fields and Chickballapur areas re. the frequency conversion has yet to be done, and so, there is doubtless a necessity to continue his services. Mr. Kallolimath may perhaps be started on Rs 200/- in the grade of Junior Engineer for which there is a provision in the sanctioned establishment. In lieu of 1 Junior Engineer and 2 Senior Operators, only one Junior Engineer may be sanctioned for one year".

5. Thereupon the Financial Secretary to Government has observed as follows:-

"This officer was appointed temporarily in grade Rs 125-10-175. The Chief Electrical Engineer proposes the continuance of this officer in the same grade and on the same pay. He has not proposed any increase in the pay. His proposals may be approved."

6. When the papers were placed before the Minister for Agriculture and Public Works, he was pleased to minute as follows:-

" It seems that on a previous occasion on the representation of this officer for being appointed in a Gazetted Post, the previous Dewan seems to have ordered that his case may be taken up for consideration when the next batch of Probationers are recruited. Please get the file and put it up for my perusal".

7. On the papers being put up, the Minister for Agriculture and Public Works has further minuted as follows:-

"In 1943, the Chief Electrical Engineer sent up a proposal to appoint Mr. K.C. Kallolinath as a Junior Engineer on Rs 200/- in grade Rs 200-20-300. In the Memorandum accompanying his letter the Chief Electrical Engineer says that Mr. Kallolinath is a B.Sc., in Electrical Engineering in the College of Technology in the Manchester University and has had considerable training in the manufacturing firms in England. But his proposal was not accepted as could be seen from the orders passed by the previous Dewan".

"When the next batch of Probationers was taken in May 1945, his case was not taken into consideration, perhaps on the ground that he is not a Mysorean. In November 1945, he was appointed on Rs 125/- in grade Rs 125-10-175 temporarily

temporarily for a period of six months in one of the vacancies sanctioned by Government in their Order No.EDI.529-31 dated 7th September 1945 for frequency conversion scheme. The Chief Electrical Engineer who sent up his proposals stated that he would be absorbed in that grade after the expiry of the period, if his work is found satisfactory. The appointment was extended by another six months as proposed by the Chief Electrical Engineer and it expired on 9th December 1946. The Chief Electrical Engineer has now sent up further proposals for continuing his appointment for a further period of 12 months"

After considering the views of the Chief Electrical Engineer, the Electrical and the Financial Secretaries the Minister further observed as follows:-

"In view of the very high foreign qualification of the officer and his experience in reputed English Firms where he has worked and in view of the fact that the present Chief Electrical Engineer himself had recommended him for appointment as a Junior Engineer on Rs 200/- in grade Rs 200-20-300 I am inclined to agree with the Electrical Secretary that Mr.Kallolimath may be appointed on Rs 200/- against the sanctioned post of a Junior Engineer".

8. The Board is agreeable to the proposal as set forth in the minute of the Minister

Minister for Agriculture and Public Works.

9. In view of urgency orders have been issued pending disposal of the case by circulation after obtaining the approval of the Minister for Agriculture and Public Works and the Dewan thereto.

Agriculture &
Final Note by the Minister for/Public Works.

Subject.— Promotion of Mr. R.S. Kallolimath, B.Sc.(Manchester), Operator, as a Junior Engineer in the Electrical Department.

In his letter dated the 31st October 1945, the Chief Engineer Electrical/ recommended that Mr. R.S. Kallolimath, be appointed as a temporary Operator on Rs. 125/- per mensem, in the grade of Rs. 125-10-175 against one of the Senior Operators' posts sanctioned in Government Order dated 7th September 1945, for a period of six months in connection with the work relating to the collection of data for the Frequency Conversion Scheme in the area covered by Bhadravati and Davangere Power Stations. The Chief Electrical Engineer also added that if his work was found satisfactory during the above period, his case would be recommended for absorption in the above grade in a permanent vacancy to be available at the end of the period. The above recommendation of the Chief Electrical Engineer was sanctioned by Government in their Order dated the 21st November 1945.

As the collection of data for conversion of Power Distribution System at and around Bhadravati had not been completed, Mr. Kallolimath's services were continued for a further period of six months from 10th June 1946 in Government Order dated 11th July 1946.

In his letter dated the 19th November 1946, the Chief Electrical Engineer states that during the last twelve months, Mr. Kallolimath has collected data pertaining to electrical machinery installed by the several consumers in Bhadravati, Hassan and Mysore Sections, and that it is desirable to continue his services for one year more from 10th December 1946, so that he may also collect similar data pertaining to other Sections, viz., Bangalore Power and Lighting, Chickballapur Power and Lighting, Kolar Gold Fields Power and Lighting and Kankanahalli

Power and Lighting. The Chief Electrical Engineer considers that this data will be very useful in the distribution of power generated at Jog and for devising the best means to convert power supply system in the State from 25 cycles to 50 cycles.

As there was no vacancy in grade Rs. 125-10-175 in the temporary establishment sanctioned in Government Order dated 7th September 1945 referred to above, the Chief Electrical Engineer has suggested that the post of a Junior Engineer in the grade of Rs. 200-20-300 sanctioned for six months in the said Government Order dated 7th September 1945 may be reduced to that of an Operator in the grade of Rs. 125-10-175 for a period of 12 months and that Mr. Kallolimath be counted against the new post.

The Secretary to Government, Electrical Department has proposed that Mr. Kallolimath may perhaps be started on Rs. 200/- in the grade of Junior Engineer for which there is a provision in the sanctioned establishment, and suggested that in lieu of one Junior Engineer and two Senior Operators, only one Junior Engineer may be sanctioned for one year.

The Financial Secretary has suggested that the Chief Electrical Engineer's proposal may be approved.

In 1943, the Chief Electrical Engineer sent up a proposal to appoint Mr. R.S. Kallolimath as a Junior Engineer on Rs. 200/- in grade Rs. 200-20-300. In the Memorandum accompanying his letter, the Chief Electrical Engineer stated that Mr. Kallolimath is a B.Sc., in Electrical Engineering in the College of Technology in the Manchester University and that he has had considerable training in the manufacturing firms in England. But, his proposal was not accepted at that time.

When the next batch of Probationers was taken in May 1945, his case was not taken into consideration.

M In view of the very high foreign qualifications of Mr. Kallolimath and his experience in reputed English firms where he has worked and in view of the fact that the present Chief Electrical Engineer himself had recommended him for appointment as a Junior Engineer on Rs. 200/- in grade - Rs. 200-20-300, I am inclined to agree with the Electrical Secretary that Mr. Kallolimath may be appointed on Rs. 200/- against the sanctioned post of a Junior Engineer. Orders W were issued in view of urgency, with the approval of the Dewan thereto.

Para 15 of Note 4 "R"

The proposal has been agreed to by the Dewan and the other Ministers of Council and I solicit the gracious approval of His Highness to the action taken as above.

L. Siddappa.

Bangalore,
27th February 1947.

Minister for Agriculture
and Public Works.

Submitted to His Highness.

I submit herewith a Final Note by the Minister for Agriculture and Public Works on the subject of the promotion of Mr. R.S. Kallolimath, B.Sc.(Manchester), Operator, as a Junior Engineer in the Electrical Department, for the gracious approval of His Highness.

H.S. Rowan.

GOVERNMENT OF MYSORE
ELECTRICAL DEPARTMENT

OFFICE OF THE CHIEF ELECTRICAL ENGINEER,
Bangalore, 18th November 194 6
(MYSORE, S. INDIA.)
19.11

w.H.N.

The Secretary to Government,
Electrical Department,
Bangalore.

Rl. Put up early along with previous refes. if any. RL. 19/11.

Sir,

Appointment of Mr.R.S.Kallolimath, B.Sc.(Manchester) in grade Rs.125-10-175. 19/11

Hd C) I have the honour to invite your kind reference to G.O.No.EDS.92-4/Elecl.269-45-4, dated 11-7-1946 continuing Mr.R.S.Kallolimath as Temporary Senior Operator on Rs.125/- per mensem in grade Rs.125-10-175 for a period of six months from 10-6-1946 against the second of the two posts sanctioned in G.O.No.EDS.529-31 dated 7-9-1945 for preliminary work regarding conversion of Bhadravathi Power Distribution System to 50 ~~K.V.~~ Cycles and to state that the term of the appointment closes on 9-12-1946. During the last twelve months in which he is employed on the work, Mr.Kallolimath has collected the data pertaining to Electrical machinery installed by the several consumers in Bhadravathi, Hassan and Mysore Sections. But as the frequency of power supply is gradually to be changed to 50 cycles over the entire State, I deem it desirable that Mr.Kallolimath should be continued on his present duties so that he may collect the data pertaining to Electrical machinery used by the consumers in the other Sections also. This data will be considerably useful in the distribution of power generated at Jog, and devising the easiest means by which the power supply system in the State can be changed to 50 cycles. As Mr.Kallolimath has to collec data relating to Bangalore Power & Lighting, Chickballapur Power & Lighting, K.G.F. Power and Lighting and Kankanhalli Power and Lighting Sections he will have to be continued on the job for a period of 12 months more.

(2) Under the circumstances I would request you kindly to obtain approval of Government to continue Mr.R.S.Kallolimath as Temporary Operator in grade Rs.125-10-175 for a period of 12 months from 10-12-1946. As there is no vacancy appointment in grade Rs.125-10-175 in the Temporary Establishment sanctioned in G.O.No.EDS.529-31 dated 7-9-1945 to continue Mr.Kallolimath I suggest that the appointment of the Junior Engineer sanctioned therein

P.T.O.

therein for six months may be reduced to that of an Operator in Grade Rs.125-10-175 for a period of 12 months and Mr.Kallolimath counted against this new post. The cost on this account can be met out of the sum of Rs.5,200/- sanctioned in the Government Order of 7-9-1945 as the ministerial establishment sanctioned therein has not been entertained hitherto.

I have the honour to be,
Sir,
Your most obedient servant,

Chief Electrical Engineer. 18/7/1

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

ELECTRICAL DEPARTMENT.

Read:-

Government Order No.EDS.252-315 dated the 3rd August 1939 passing orders for the adoption of the standard frequency of 50 cycles instead of 25 cycles, in connection with the generation of power at the Jog Falls and also for the rest of the State, gradually at any time between 1942 and 1950.

2. Correspondence ending with letter No.4076 dated the 24th May/ 5th June 1945 from the Chief Electrical Engineer stating that the work connected with the above-mentioned conversion scheme involves the collection of comprehensive data regarding the full details of motors, fans, etc., that are served from Bhadravati and Davangere Power Stations and requesting sanction of Government to the entertainment of the marginally noted staff for the work for a period of six months at a cost of Rs.5,200/- to work under the Superintendent, Bhadravati Power and Lighting, the cost being met from the provision of Rs 7 lakhs made under item No.14 (b) of the Revised estimate for the Jog Power Scheme.

No. and Designation.	Grade.	Average cost per month
One Junior Engineer	Rs.200-20-300 plus C.A.Rs.35/-	Rs.301 2/3
Two Senior Operators	Rs.125-10-175 plus C.A.Rs 15/- each.	Rs.346 2/3
One Clerk	Rs.45/-fixed	Rs. 45
One Stenographer	Rs.45/-fixed	Rs. 45
Two peons	Rs.12/-fixed each	Rs.24
		Rs.762 1/3
	Travelling Allowance	Rs.100 per month
	Total	Rs.862 1/3 per month i.e. Rs.5,174 or Rs.5,200 for six months.

G.O.No.EDS.529-31 Dated Bangalore 7th Sept.1945

The staff required for the frequency conversion scheme as detailed in para 2 above is sanctioned for a period of six months the cost viz. Rs.5,200 being met from the source pointed out by the Chief Electrical Engineer.
